

10D7N Iceland Northern Light Expedition

TOUR HIGHLIGHTS

ATTRACTIONS

- Golden Circle: Thingvellir National Park (UNESCO), Geysir & Gullfoss
- Jokulsarlon Glacier Lagoon & Diamond Beach
- Seljalandsfoss & Skogafoss Waterfalls (South Coast)
- Snaefellsnes Peninsula: Kirkjufellsfoss & Lóndrangar Rock
- Hallgrímskirkja Church & Blue Lagoon, Reykjavik

GOURMET

- 7 Breakfast / 6 Lunch
- Hot Breakfast at Hotel
- Buffet, Fast Food & Chinese Meals
- Authentic Icelandic Cuisine along the Route

EXPERIENCE

- Aurora Borealis (Northern Lights) Hunting
- Myrdalsjokull Glacier Hike (Subject to Natural Phenomena)
- Black Sand Beach & Basalt Columns at Reynisfjara
- Optional: Ice Cave by Monster Truck / Blue Lagoon Geothermal...
- Icelandic Horses, Puffins & Huskies

HOTELS

ACCOMMODATION

- Tourist Class Hotel or Similar (7 Nights)
- Comfortable 2-Night Stays in Keflavik, Hella & Borgarnes
- Northern Lights Hunting Across the Best Aurora Season (Sep-Apr)
- Tour Manager Guidance for Aurora Viewing

DAILY ITINERARY

Day 1 Kuala Lumpur -> Keflavik (18H++)

Day 2 Keflavik

Keflavik

A town in the Reykjanes region in southwest Iceland. Combined with the nearby town of Njardvik, its population was 15,129 as of 2016. Arrive at the airport and transfer to the hotel to rest before the journey begins.

Day 3 Keflavik -> Golden Circle (124KM, 2H) -> Hella (89KM, 1H30M) | Meal:

Thingvellir National Park

Founded in 1930 and designated a UNESCO World Heritage Site in 2004, Thingvellir is the most important cultural site and one of the most popular tourist destinations in Iceland.

Geysir Hot Springs

A popular geothermal area where visitors can wander among bubbling mud pools and steaming landscapes, including the active Strokkur geyser that erupts every few minutes.

Gullfoss Falls

Also known as the "Golden Falls," one of Iceland's most spectacular waterfalls, set in the canyon of the Hvita river. Together with Thingvellir and the geysers, Gullfoss forms part of the Golden Circle -- an incredible sight you are not.

Aurora Borealis (Northern Lights)

A beautiful and mysterious phenomenon that occurs when solar winds interact with the Earth's magnetic field, sending high-energy particles into the atmosphere to collide with gas molecules and produce brilliant lights. The best season runs from September to April, with.

Day 4 Hella -> Seljalandsfoss (34KM, 45M) -> Skogafoss (29KM, 30M) -> Myrdalsjokull (10KM, .

Seljalandsfoss Waterfall

Located on Iceland's south coast, this waterfall drops 60 metres and is fed by the Seljalands River, which originates in the Eyjafjallajokull glacier volcano. Visitors can walk behind the falls into a small cave.

Skogafoss Waterfall

One of the largest and most elegant waterfalls in Iceland, measuring 25 metres wide with a cascade that drops 60 metres.

Black Sand Beach

The most famous black-sanded beach in Iceland and one of the best known in the world -- a place of wild, dramatic beauty where the roaring Atlantic waves crash ashore with tremendous force.

Basalt Rock Column

Towering hexagonal basalt columns at Reynisfjara, formed by slowly cooling lava, rising from the black-sand shoreline beside the pounding surf.

Eyjafjallajokull Volcano Snow Cap

The glacier-covered ice cap crowning the Eyjafjallajokull volcano, famous worldwide for its 2010 eruption. (Visibility is subject to weather and may be obscured on cloudy days.)

Myrdalsjokull Hike to the Glacier

Only about a 30-minute walk from base, the trail crosses a varied landscape shaped by the glacier over thousands of years, revealing how rapidly the ice has retreated in recent years. (Opportunity to meet a natural ice cave -- subject.)

Day 5 Hella -> Jokulsarlon (289KM, 3H30M) -> Hella | Meal: B / L

Jokulsarlon Glacier Lagoon

A large glacial lake in southeast Iceland that formed as the glacier receded from the edge of the Atlantic. Now the deepest lake in Iceland at over 248 metres, it is considered one of the country's natural wonders, appearing as.

Diamond Beach

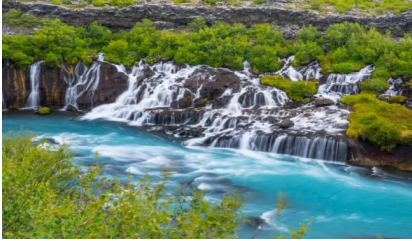

A strip of black sand on the Breidamerkursandur glacial plain beside the lagoon. As the lagoon's icebergs melt and drift out to sea, many wash back ashore -- a magnificent spot at both sunrise and sunset as light glints through.

Vatnajökull Viewpoint

A viewpoint over Vatnajökull, Iceland's largest ice cap and the source of the many glaciers that feed the Jokulsarlon lagoon.

Day 6 Hella -> Barnafoss (200KM, 3H) -> Borgarnes (65KM, 1H) | Meal: B.

Hraunfossar Waterfall

A series of crystal-clear cascades that seep from beneath a lava field and spill into the Hvita river, stretching for nearly a kilometre along the bank.

Barnafoss (Children's Falls)

Just above Hraunfossar lies the famous Barnafoss, the "children's fall." By legend it takes its name from two children who fell into the waterfall -- a story of a mother and her two young children.

Day 7 Borgarnes -> Snaefellsjokull Excursion -- Arnarstapi & Bardur Snaefellsnes (17KM, 1H) ->.

Gatklettur Rock Viewpoint

A famous, naturally formed stone arch found along the coast between the villages of Arnarstapi and Hellnar on the Snaefellsnes Peninsula.

Bardur Snaefellsas Statue

A large stone statue at Arnarstapi depicting Bardur Snaefellsas, the legendary half-troll guardian spirit of the Snaefellsnes Peninsula from Icelandic saga.

Londrangar Rock

A pair of dramatic volcanic lava pinnacles, the Londrangar basalt cliffs, jutting out from the sea along the coastline.

Kirkjufellsfoss Waterfall

Set on the Kirkjufellsa river on the northern side of the Snaefellsnes Peninsula, this five-metre fall flows over several levels into three separate spouts. Before it rises the pyramid-shaped Mount Kirkjufell, one of the most scenic peaks in Iceland.

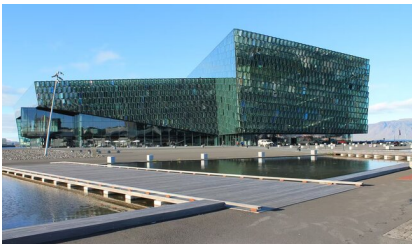

Hallgrímskirkja Church

One of Reykjavik's most notable landmarks and the largest church in Iceland. Standing 73 metres tall, its tower can be seen from almost everywhere in the city.

Sun Voyager Sculpture

A stainless-steel sculpture by Jon Gunnar Arnason beside the Saebraut road in Reykjavik, representing a voyage following the sun.

Harpa Concert Hall and Conference Centre

A striking glass concert hall and conference centre on Reykjavik's harbour, its honeycomb facade of coloured glass inspired by Iceland's basalt landscape.

Blue Lagoon

Probably Iceland's most famous geothermal hot spring, with its striking milky-blue waters. A place to relax your cares away and smear mineral mud on your face, conveniently located near the airport.
